“Empowering and Leading Operations Excellence”

Mission

To be recognized as the top most leading & research Institute focused on Operations Management, through dynamic culture of academics excellence for crafting Operations Leaders with high values and multidisciplinary skills of global significance for the industry & community.

About SIOM

SIOM is a B-School with a difference. It realizes that excellence in the management of business operations and technology provides a competitive advantage in today's fast-paced business environment. Dedicated focus on Operations Excellence is how SIOM differentiates itself from other business schools. The ideal mix of technology and management skills creates Techno Business Managers who are equipped with technology, farsighted management practices backed by unique curriculum and pedagogy.

Unique Program Features:

- Highly advanced state-of-the-art courses.
- A balanced understanding of technical-analytical, organizational-behavioral aspects of the market Flexible program with interdisciplinary delivery of tracks (e.g. Supply Chain Management / Service Operations)
- Great industry exposure provided by live projects
- Non-academic activities and Soft skill development through activities like Outbound Learning, competitions, case studies participation and various student driven committees

The MBA students at the end of the program become Techno-Commercial leaders who bring on board the following:

- The ability to lead manage business processes & utilize the power of technology for all business applications.
- A comprehensive knowledge of various management tools like SAP, SPSS, LINDO, LINGO etc.
